MiningWorld Russia —

MiningWorld is an effective promotional platform for direct contact between mining machinery & equipment producers and suppliers with Russian mining companies, mineral processors, and wholesale traders interest in acquiring new mineral extraction, processing and transportation tech.

Year-on-Year event growth

15500 M²
exhibition area

431
exhibitors

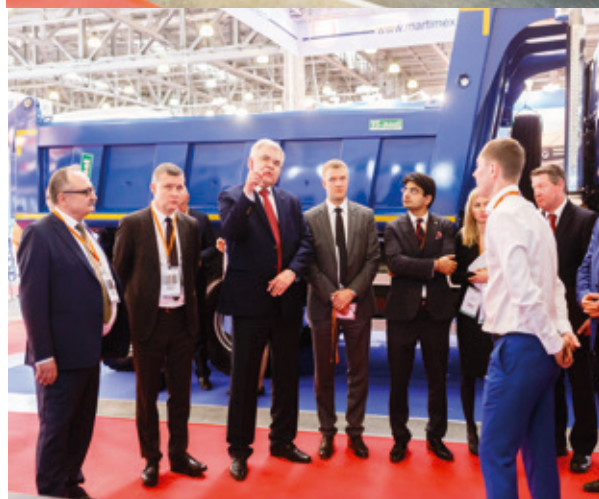

5927
visitors

70
Russian Regions

29
countries

Exhibition profile

- Heavy Equipment Territory
- IT & automation technologies
- Mineral exploration
- Mineral processing and dressing
- Mineral transportation
- Mine health & safety equipment
- Water treatment, air filtration and environmental monitoring systems
- Laboratory equipment & materials
- Power supply equipment for mining companies
- Mine construction technologies

National Groups at MiningWorld Russia 2019
were Germany, Norway, Australia, Finland, China, India, France and Turkey.

Take part in
"Heavy Machinery Territory"

68% (3725)
of visitors are key decision makers

73% (4316) of visitors came
to sources new products and services,
and gather general industry information

57% (3582) of visitors are senior
management figures, directors, company
owners, or department heads

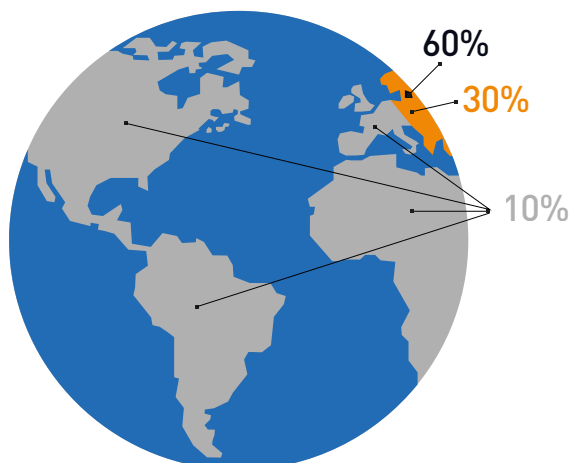

60% of visitors are newcomers

Visitors by geography

Foreign countries

MinngWorld Russia 2019 visitors' products of interest

Machinery & equipment for open mining	2674
Mineral processing machinery & equipment	2346
Mine construction materials & equipment	2341
Underground mining machinery & equipment	2256
Field exploration machinery & equipment	1934
IT & automation technologies	1412
Mine construction materials & equipment	1231
Mining Health & safety equipment	1196
Water, air & environmental monitoring systems	1001
Laboratory equipment & materials	975
Power generation equipment	829
Other	210

MiningWorld Russia visitors' area of business

Machinery & equipment supply / wholesale	1958
Mining	1021
Mineral processing	346
Design & construction of mining companies	345
Exploration	152
Transportation	248
Geology	51
Oil & gas extraction	109
Other *	1054

* Other refers to the following activities:
supply of spare parts and components, software and IT-solutions, logistics, supply and maintenance of large tires, consulting, transportation, automation, supply of lubricants, research activities, leasing, certification, financial services, exhibitions, engineering, translation services, maintenance of equipment, metallurgy, supply of chemical products, advertising, mining and mineral processing, personnel selection, marketing, manufacture of refractories, power supply, construction, sale of explosives and means of initiation, educational services, manufacture of metal products, wholesale trade, supply of laboratory equipment, fire safety, Metalworking, supply of RTI, development of digital environment, blasting, steel ropes for cable cars, production, construction materials, bearings, wear-resistant steels, abrasives, geosynthetic materials, supply of industrial equipment.

Heavy Machinery Territory

EXHIBITION SECTOR DOUBLES IN SIZE
COMPARED WITH MININGWORLD RUSSIA 2018

Heavy equipment and machines from leading
Russian and foreign suppliers:

1. Heavy cargo transport

2. Innovative drilling rigs

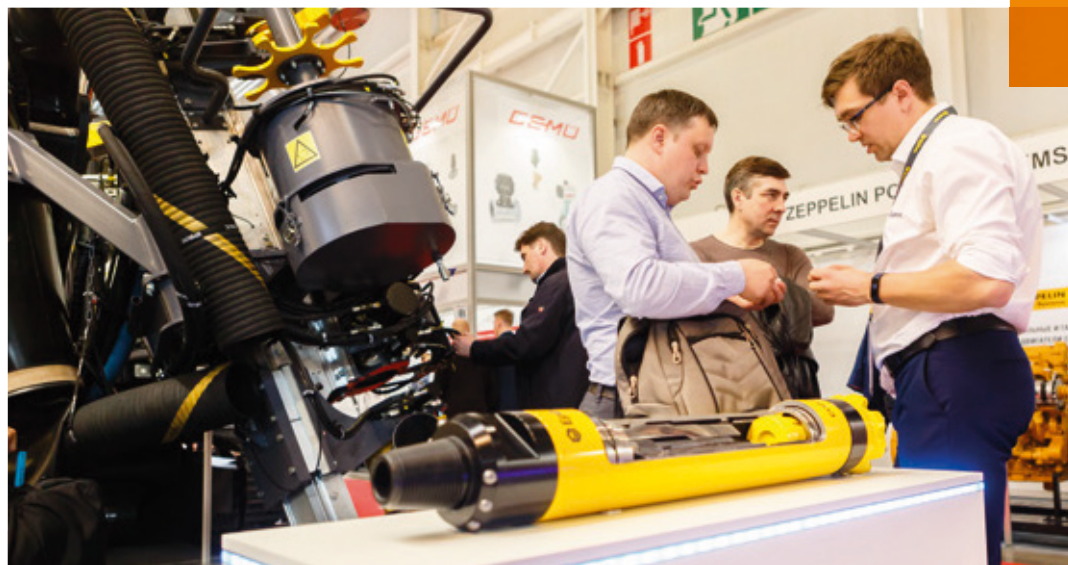

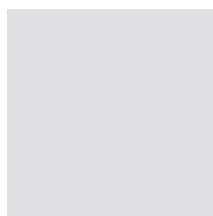

3. Trolleys

4. Industrial
automation
equipment

and more
